Art Unit: 3641

1. The disclosure is objected to because of the following informalities: On page 7, line 1, numerical indicator 200 should be 50. On page 7, line 6, numerical indicator 70 should be 50.

Appropriate correction is required.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 8 and 10, the phrase "said handle" should be (said handle portion) if this is the intended antecedent. In claim 1, lines 13, 15, and 18, the terms "a standard ammunition belt"; "a standard bullet"; and "a standard machine gun" make the claims indefinite as to what features of an ammunition belt; bullet, or machine gun must be present to be considered standard. In claim 1, line 13, what is considered to be inclusive in the term "it" is indefinite. In claim 1, line 18, the phrase "the feed pawl" lacks an antecedent. In claim 1, line 19, the phrase "said head" should be claimed as (said head portion) if this is the intended antecedent. In claims 2, 3, and 4, the phrase "said head" should be (said head portion) if this is the intended antecedent. In claim 2, the phrases "the M 60 machine gun" and "the 240 Golf machine gun" lack antecedents. In claim 2, what features of a machine gun need be present to qualify the machine gun as either an M 60 machine gun or a 240 Golf machine gun. If there are not features common to all of these particular machine guns that are well known in this art or if the written specification does not provide support for what these features are, such claim language is indefinite as to its intended scope. In claim 3, it is not understood as to how "any 7.62 mm ammunition belt" could be used with this invention in view of the number and variation in types of 7.62 mm ammunition belts available in this art. In claim 5, what military specifications are

Art Unit: 3641

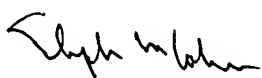

intended by the phrase "military specifications"? In claim 6, how is the term "a machine gun" intended to relate to the previously claimed (machine gun) (see claim 1)? In claim 6, the phrase "the feed tray" lacks an antecedent. In claim 9, what the word "it" is intended to reference is indefinite.

3. Claims 1-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Horowitz et al., Bentley et al., Pachmayr et al., Sprenger et al., Angier et al., and Zbrojovka disclose state of the art ammunition feeding arrangements.
